

DRIVEN BY POSSIBILITY™

GATES® HYDRAULIC SOLUTIONS:

PRO™ SERIES COUPLINGS

HYDRAULIC SOLUTIONS FOR THE FACTORY AND FIELD.

ENGINEERED TO DELIVER DEPENDABLE, APPLICATION-SPECIFIC PERFORMANCE.

Gates PRO™ Series coupling line offers professional-grade hydraulic solutions engineered to industry standards and specifications.

Our couplings are designed to balance product investment and performance, based on specific application demands.

We believe operating challenges are made to be overcome. That's why thousands of industrial facilities, global operations and OE manufacturers around the world choose Gates hose and hydraulic systems to power their demanding fluid power applications.

FEATURES + BENEFITS

- Qualified with Gates PRO™ Series hoses ranging from -4 to -16 for a robust hydraulic system solution
- Application-specific design offers reliable performance that gets the job done
- Designed and tested with PRO™ Series hoses to meet SAE, EN and ISO specifications
- System designs can be evaluated and optimized by our experts to ensure you get the right product for the application
- Manufactured to Gates high-quality standards

DRIVEN BY POSSIBILITY™

GATES® PRO™ SERIES COUPLINGS:

PROFESSIONAL- GRADE HYDRAULIC SOLUTIONS

Gates® PRO™ Series Couplings are qualified for use with the full line of PRO Series hoses to ensure end-to-end performance — providing a broad range of engineered solutions for targeted hydraulic applications.

Over the last 50 years, Gates has driven standard adoption in the industry. We have used our extensive knowledge of standards, industries and applications, as well as our expertise in materials science to create a competitive edge for our customers by developing application-specific solutions that offer reliable performance.

Use the following quick selection chart to evaluate your application needs and determine the best suited Gates family of products.

PRO™ Series

**Reliable Performance
for Standard Duty
Applications**

MegaSys™

**Our Highest Level
of Performance for
ALL Applications**

HOSE COMPATIBILITY	PRO SERIES	MEGASYS
WEEP PATH PREVENTION (CRIMP FORCE DISTRIBUTION)	STANDARD	C-INSERT ELIMINATES WEEP PATHS
OVER-TORQUE PROTECTION	STANDARD	FULL TORQUE NUT
LEAK PROTECTION (STEM LENGTH)	STANDARD LENGTH	EXTENDED LENGTH
CORROSION PROTECTION	STANDARD	300%+ LONGER

THE RIGHT PRODUCTS FOR YOUR APPLICATION

GATES HYDRAULICS DELIVERS

PERFORMANCE + TECHNICAL EXPERTISE

- Productive applications start with safe, durable and efficient hydraulic hoses and couplings from Gates
- Support from highly capable application experts and engineers
- In-depth Hydraulic Hose Training Workshops to improve onsite safety, reduce downtime and increase your productivity
